

ReLoop Dominance 702

Dominance reloaded: The 02 series of ReLoop's Dominance amps combines intelligent electronics and qualitative manufacturing adding up to an amplifier solution for gastronomy, business and clubbing. The Dominance amplifiers' variable aerators keep the temperature at an optimum level at all times, a vast protective circuit package avoids unwanted overloading of any kind. With the three different capacity levels for 360, 720 and 960 watt every sound engineer should be able to find the right package.

features:

- Heavy duty aerator with variable speed, keeps the amplifier at an optimum temperature in every condition
- Novel transistors
- Large, oversized cooling fins
- Overload protection and short-circuit protection
- High reliability
- Thermal protective circuit
- Separate amplifier circuits for channel A and B
- Ground/lift switch against background noises
- Aluminium cooling tunnel
- Outputs: PA speaker cord pro, screw clamps, 6.3 mm jacks
- Inputs: jacks, RCA

technical data:

- 360 watt pro final amplifier
- Output rating:
2 x 180 w, 4 ohm
2 x 120 w, 8 ohm
- Frequency range: 10 Hz - 50 kHz
- Dimensions: 482 x 88 x 314 mm
- Weight: 9.5 kg
