

Reloop RSP-15

Reloop's RSP speaker series presents the upper medium-range class in the speaker segment. High-quality components such as professional integrated frequency cross-overs or hard suspension woofers speak for themselves. Reloop's RSP speakers are all marked by their powerful crisp woofer, designed especially for heavy bass sounds like hip hop, techno, house & breaks. Whether the small 100 watt 2-way speaker, the convenient floor monitor, a powerful subwoofer or the 800 watt top of the range RSP-30; there is a solution for every sound requirement.

features:

- Hard-suspension bass with Kapton spool
- High-range horn with thermal overload protection
- Integrated high-quality frequency cross-over (not for RSP-18 S)
- Sound characteristics geared especially to heavy-bass sounds like hip hop, techno, house & breaks
- High-performance reserves
- Extremely durable, road-compatible carpeting
- Protective metal corners
- Large carrying shells made of metal
- Sunk-in metal flange for tripods (not RSP-12 M and RSP-30)
- Robust front grid
- Connections via PA pro speaker cable and 6.3 mm jack

technical data:

- 200 watt RMS PA-speaker
- Max. capacity: 400 watt
- 1" compression clamp driver
- Type: 2-way system
- Frequency range: 45 Hz - 20 kHz
- Acoustic pressure: 97 dB
- Speaker: 38 cm (15") woofer, mid-range and tweeter
- Impedance: 8 ohm
- Dimensions: 730 x 450 x 440 mm
- Weight: 27.5 kg
